

# CHILD BEHAVIORAL HEALTH SCREENINGS NOW AVAILABLE

**Do you have any of the following concerns about your child that have not already been explored with or treated by a mental health professional?**

- **Depression**
- **Anxiety**
- **Attention Deficit Difficulties**
- **Disruptive/Oppositional Behavior**
- **Trauma**
- **Self-Harm**
- **Impulsivity**
- **Substance Use**
- **Eating Disorders**
- **Suicidal Thoughts/Attempts**
- **Inability to Focus**

Research shows that earlier detection and support of any behavioral health needs is key to a child's success!

Family Service Society, Inc., with support from the United Way of the Southern Tier, is offering FREE screenings of children for early identification of behavioral health needs.

The Behavioral Health Screener will conduct the screening and when appropriate, link the child and family to individualized supports, to help the child lead a more productive and successful life.

A FREE Behavioral Screening is the first step in getting your child the help that they need to feel better about themselves and thrive.

**To schedule a Behavioral Health Screening, please contact Family Service Society, Inc. at 607-962-3148.**
